

### Monthly Log for Inspection of the Fire Extinguishers

This monthly inspection ensures that the fire extinguishers are housed appropriately, are clean and free of any defects that would impede on their performance in the time of need.

Fire Extinguisher Number: \_\_\_\_\_ Date Range: \_\_\_\_\_

JANUARY	Y	N	FEBRUARY	Y	N
Is the extinguisher located in a designated space?			Is the extinguisher located in a designated space?		
Are there any obstructions to access or visibility?			Are there any obstructions to access or visibility?		
Are the operating instructions on the nameplate legible and facing outward?			Are the operating instructions on the nameplate legible and facing outward?		
Are any safety seals and tamper indicators broken or missing?			Are any safety seals and tamper indicators broken or missing?		
Is the extinguisher judged to be full (determined by weighing or lifting)?			Is the extinguisher judged to be full (determined by weighing or lifting)?		
Is there visible damage, corrosion, leakage, or clogging of the nozzle?			Is there visible damage, corrosion, leakage, or clogging of the nozzle?		
Is the pressure gauge in the operable range or position?			Is the extinguisher located in a designated space?
