## CLEANUP AND DISPOSAL OF VOMIT

**POLICY:** To reduce the contamination of the setting and decrease the risk of the spread of illness.

**PROCEDURE:** The Voban absorbent bag will be kept in the storage closet with other cleaning supplies. The Voban bags are for one time use only.

1. When a mishap occurs, spread a 1/2" layer onto the problem area
2. Allow a short period for absorption
3. Don gloves
4. Sweep or scrape absorbed spillage into a dustpan and then put into the bag for disposal. Seal the Voban bag in a large Ziploc bag and dispose of in the outside dumpster
5. If the area remains slightly wet, sprinkle on additional absorbent and continue the process until it is clean and dry
6. Wipe the area with disinfectant as per the manufacturer's instructions
7. Doff gloves and dispose of in a trash can with a lid
8. Wash hands as per the clinic hand washing policy
